

Work Experience (brief summary):

I have been all over the board career-wise. I joke about how I started on the left side of my brain (accounting) and moved to the right (OD) and likely stuck somewhere in the middle. I currently work at Lincoln Financial Group as the AVP of Talent Management & Sales Development for our group benefits sales organization. Previously, I spent 22 years in the utility industry doing accounting, auditing, system projects, OD, and human resources and prior to that I was a CPA.

Why Omaha ODN is important to me:

It is all about the relationships I have formed and the openness and sharing that my colleagues have been with me as I was learning about the profession.

Dream Job:

Be an owner of a professional football or basketball team (didn't see that one coming did you!)

Famous Person I'd Most Like to Meet:

Bill Clinton

Favorite Quote:

"Be the change you want to see in the world." Mahatma Gandhi
